

Reliability and Compliance Workshop Agenda

Wednesday, Sept. 22 and Thursday, Sept. 23

1:00 to 5:00 pm Eastern Both Days via WebEx

PUBLIC

The theme of this year's event is **Building Sustainable Programs**, and the goal is to help Entities and stakeholders establish, improve and maintain their efforts in critical areas.

This includes gaining a deeper understanding of why and how sustainable programs (e.g., compliance programs, internal control programs, Facility Ratings, implementing new standards, etc.) significantly contribute to greater grid reliability, security and resilience, as well as risk mitigation.

[Register Here!](#)

Intended Audience

- Primary/Alternate Compliance Contacts
- Directors, VPs, Executives and Managers of all levels
- Internal Control Champions
- Protection & Control Engineers
- IT/OT Support
- Supply Chain Specialists
- Cybersecurity Personnel
- Operations and Planning SMEs, including shift supervisors and those involved with short-term and long-term horizon planning assessments
- Business Unit Leaders interested in creating sustainable processes for continued success and improvement

Additional Event Details

- All attendees must register for this event.
- WebEx dial-in details will be shared with registrants closer to the event date.
- There is no fee to attend this webinar, and it is open to anyone interested from the electric utility industry, including vendors and regulators.

Detailed agendas can be found on the following two pages.

Please contact [Megan Baucco](#), Communications Manager, with any questions.
